· I have been in the customer service industry for the past 6 years.
· My most recent experience has been doing the development work in the high-tech industry.
· One reason I particularly enjoy this business, and the challenges that go along with it, is the opportunity to connect with people.
· Skilled in the areas of **AGILE** and **CA CENTRAL**.
· Motivated and eager to advance my career with a growth-oriented, technically advanced organization as a Senior software developer.
· "My real strength is my attention to detail. I pride myself on my reputation for following through and meeting deadlines. When I commit to doing something, I make sure it gets done, and on time."

- To resolve the abend issues on the jobs and update then in JIRA software.
- To update the JIRA software.
- To Schedule jobs as per the requirement basis with tools such as CA7 and endeavor.

2014-05 - 2017-03

Senior Software Developer

Cognizant Technology Solutions, CHENNAI, TAMIL NADU

- We will generate Card member statements across the world for a BFS company. We use a third
- Party tool CSF for composition which runs on Linux and all the rest batch runs in Mainframes.
- **Title: DUMAS. [February 2016 – May 2016]**
- DUMAS is a new Card type introduced by our client for US market for Loan card

- Members. For this a statement layout has to be created.
- Environment: COBOL, CSF, DB2, Control-M, JCL.
- **Responsibilities:**
- Handling client calls to understand the requirements.
- Did the modification to the existing COBOL programs to accommodate new (card DUMAS) changes.
- Updating the DB2 tables and Modified the JCL's as per requirement.
- Implemented the project and handled to support team.
- **Title: MS to COBOL. [December 2015 – February 2016]**
- Market switch is a rule engine. Licensing cost of the tool is high and tool got expired.
- Writing the rules in COBOL was proposed by our client.
- Environment: COBOL, Control-M, JCL, Rexx.
- **Responsibilities:**
- Creating rules in COBOL to pick particular message for certain criteria.
- Created JCL's as per requirement.
- Created Schedules as per the requirement.
- **Title: One click testing. [December 2015 – January 2016]**
- For testing each project must contain their own test bed. This test was made to create
- Automated using Rexx and batch JCL's.
- Environment: REXX, DB2, Control-M, Java, JCL, SORT.
- **Responsibilities:**
- Created panels using Rexx for User Interface.
- Created JCL's and Schedules to bring all BLB's, and Proc's from Development
- Region to Test region.
- Created DB2 table refresh Jobs.
- Monitoring the Jobs in CRTL-M and validating the output files.
- Shared my knowledge to the team and trained them in Rexx.
- **Title: Print shop migration in agile methodology. [February 2016 – December 2016]**
- Bulk Card member statement was unable to handle by the current system. Client moved

- The print shop to other vendor.
- Environment: REXX, COBOL, Control-M, JCL.
- **Responsibilities:**
- Created Automation Tool to validate files and market to product TDE's using
- REXX.
- Created JCL's and schedules for every market as per requirement. Taking backups with JCL.
- Developed summary file creation program.
- Unit testing and Component Testing.
- **Title: Statement Files Rerun [December 2015 – January 2016]**
- Some transactions in statement were not appropriate. Client wants to send that
- Statements again to their customers.
- Environment: Control-M, JCL, Sort.
- **Responsibilities:**
- Created JCL sort cards to pick up specific details as per requirement.
- Scheduling Jobs and Production Run.
- NDM the required files from production.
- Do the file mockups as per the project requirement
- **Client: FIRST DATA – Debit card services [Oct 2014– Nov 2015]** First Data Corporation is a global payment technology Solutions Company headquartered in Atlanta, Georgia, United States. The company's STAR interbank network offers PIN-secured debit acceptance at ATM and retail locations.
- **Title: Framework generation for the Slovakia region codes and templates**.
- **Responsibilities**:
- To generate the pseudo templates for COBOL codes given by client so that a proper and a brief understanding can be made through those templates in order to convert them into some other codes (e.g. C, Java, etc.).

Education

2005-03 - 2006-04	**High School Diploma** *ST GEORGES COLLEGE - AGRA*

2007-03 - 2008-05	**INTERMEDIATE**: **ENGLISH** *ST GEORGES COLLEGE - AGRA*
2009-06 - 2013-06	**Bachelor of Science**: **COMPUTER SCIENCE** *ITS ENGINEERING COLLEGE - GREATER NOIDA*

Accomplishments

- Documented and resolved a batch cycle of over 1067 jobs which led to the successfully completion of the task within 2 days and also was being given recognition by the client.
- Supervised team of 50 staff members.
